

Continental Congress 2009

401(k) Losses? Unemployed? Foreclosed? **There is a CAUSE...and a SOLUTION!**

Our Nation suffers because we have abandoned the Constitution

- Economic catastrophes resulting directly from the privately-owned Federal Reserve and its debt-based fiat currency conjured from thin air
- Unconstitutionally imposed *unapportioned*, direct (*slave*) taxes on the labor of Americans
- Endless Middle-East military conflicts without any required congressional Declaration of War
- **And the most grievous injury:** A servant government that refuses to be held accountable – *in any way* - by failing to respond to the People's repeated First Amendment Petitions for Redress of Grievances.

What Law Requires You to File or Pay?

Watch not one, but *TWO*, former IRS Commissioners **REFUSE** — on camera — to cite any specific U.S. law that requires average Americans to file or pay taxes on their "income."

The documentary, "*America, Freedom to Fascism*," features the constitutional work of the WTP Foundation and can be viewed for FREE on Google.

It's time to hold our Government accountable

For almost a decade, the U.S. Government has refused to respond the People's *repeated* Petitions for Redress regarding an irrefutable body of legal research establishing that the "income" tax, as most Americans know it, *is a legal and constitutional fraud.*

Beyond this, the Government has continued to escalate its violations of numerous other provisions of the Constitution, including those regarding the Executive's failure to enforce our immigration laws; the use of public funds for private financial bailouts, (e.g., AIG and TARP); and the unconstitutional infringements on the Right to Keep and Bear Arms. *The Government has ignored every Petition for Redress.*

Historical People's Summit Called

Later this year, selected delegates representing the People of each of the fifty states will convene as a national assembly to debate our constitutional crisis and to establish practical strategies the People can take to **peacefully** restore Constitutional Order and reclaim Liberty.

These historical proceedings will be known as the "**Continental Congress 2009.**"

Taking a page from our Founders, the Delegates will convene for a period of several weeks to begin the virtuous task of organizing the People to peacefully resist tyranny.

Please join us at one of the currently scheduled CC2009 promotional meetings and help support the defense of Liberty and our Constitution.

To read our all our income tax Petitions for Redress, see the full meeting schedule, and learn about the profound power of the First Amendment Right to Petition please visit:
